DETAILS - ANAHY

Grower: Small Scale Growers
Region: Alto Mogiana
Altitude: 800 metres
Packaging: 30 Kg jute bags
Variety: Catuaí and Mundo Novo
Process: Natural
Harvest: July - september

REGION: ALTO MOGIANA

Located in the northeastern region of the Sao Paulo state, the region has elevations between 800 and 900 meters above sea level and an average annual temperature of 20o C.

Much of Mogiana's crops are grown on small farms, which are supported by established local infrastructure and easy access to new technologies. Skilled labor and reliable roads further facilitate the transport of the region's coffee production.
