**Process:** Natural and Pulped Natural

**Harvest:** Manual

## Farm Info

Tatiane and Ivan are a coffee producer couple. Ivan inherited Santa Edwiges farm from his father and his uncle, which is located in Mantiqueira de Minas region, more precisely in the Castelhana neighborhood, in the little township of Pedralva. Together with the land, Ivan has also inherited the love for the coffee crops.

They were happily living at their farm, when suddenly Tatiane got very sick. They went through a very difficult time, when they had to fight for ten years with treatments that weren't working. Then, she was submitted to a very delicate surgery and finally received the miracle of being healed.

Totally recovered, Tatiane had an internal awakening, an enormous passion that made her seek for producing each day more quality coffees. Nowadays she dedicates her time with love and commitment taking care of the coffee crops, mainly in the patio, where each batch of green coffee bean receives a very special attention.

"I thank God every day for giving us a new chance and sending my wife back to a life full of courage and determination". Says Ivan

Nowadays Santa Edwiges farm has seven hectares of planted coffee and produces around 100 to 200 bags (60kgs) of coffee per year.
