Grower: Sinival

Region: Matas de Minas

Altitude: 1290MASL

Packaging: 30 Kg specialty paper bag

Variety: Red Catuai , Yellow 2SL

Process: Natural

Harvest: June to September

Farm info

Sinival is a coffee grower born and raised on “Grumarim” stream, in the municipality of Caparao (Minas Gerais state). His grandparents were one of the pioneers of the region; they began planting from scratch in 1955. After his grandfather João Fernandes death, the 250ha property was inherited by his father Simonil Fernandes, who continued planting until his death in 1981, then the property was divided between the heirs, and Sinival kept working with coffee.

Currently his farm has 12,64ha, which 10ha are of plantation, and he produces more than 400 bags of coffee. They have started working with quality coffee by chance, because his land is in the ideal highness and ideal earth. Through “atlântica” coffee, he has discovered the quality of his coffee and then he has started investing in the quality of his equipment such as dryer, terroir, separator and so on.

He sees in the production of quality coffee the opportunity to aggregate value to his work, that is why he keeps always looking for ways to improve the quality of his coffee. Southland Merchants has given him the opportunity to export the result of his hard work.

Are you a coffee lover and want to know more about this imported coffee?

We are coffee merchants and passionate about connecting you to our farmers.
